I see that K1DMR as posted some disparaging comments about me on his QRZ biography.

As a result, I have updated my ToS page at DCI in response. His comments are not correct and they violate the settlement agreement from the lawsuit he filed against a DMR c-Bridge owner after that owner banned him from conducting his business on that Ham network.

Please read the [DCI ToS](#) page, the [Communications Support thread](#) and look through the [files](#) that support a more reasonable position...hams suing hams is just absolutely wrong on so many levels. Mike Shirley, NO7RF, July 12, 2019, 1835 hours
